Claims 11-16 are presented for examination.

The amendments and remarks filed on September 9, 2009 have been received and entered.

Claims 12 and 15 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Dean et al. (Us6,166,073) in view of Patent Abstract of Japan (JP 62-277323) and further in view of Helberg et al. (6,646,001) for the reasons set forth on pages 2-5 of the office action of June 9, 2009.

Applicant's arguments and data have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks alleges criticality to the use of benzalkonium chloride with the R being an alkyl group having 12 carbon atoms and as a result having a clear solution instead of a turbid solution obtained by the prior art BAK. Applicant is reminded that claims 12 and 15 are directed to the use of BAK used by the prior art. Therefore, claims 12 and 15 are rejected under 35 U.S.C. 103(a) for the reasons set forth on pages 2-5 of the office action of June 9, 2009.

Claims 13 and 16 are objected to as being dependent on a rejected claim.

Claim 11 and 14 at present time are considered to be allowable.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
